HOPKINSVILLE HIGH SCHOOL.

Without a reference to this most excellent institution a review of the aluenthonal establishments of Hopklusville would be incomplete Though a ls less pretentions than some of the schools, it is, in point of merit, equal to the best, as a school for the thorough instruction of young men and boys. We know ad no school, in fact, where better oppor-tunities are ullorded for prosecuting a course of study: in English, Ger-man, Greek, Latin, Mathematics und

Book-Keeping.
The object of the school is to give the object of the school is to give young men a radlegiate education, thorough and practical in its churacter, and specially adopted to the requirements of the times; and to turnish to those who groppise finishlng their education at any of our best colleges and universities, the facilities for preparing themselves for ailmls slon into the logher classes of such ustitutions. That many simients are sent, every year, to universitles and other high institutions of learning. not having been previously trained in the preparatory branches, and not

insufficient for the tasks required of an ealdfal and laistness at the outset them by the ldgh standards in the have by hard work, economical habbem by the ldgh standards in the sures of study; hence they become liseonraged, and, it may be, abandon dealing acquired a position among the leading commercial houses at our the leading commercial houses at our mosent a splendid example

Ifemembering that these failures are not intrequently attributable to a went of early training, the prin-cleal of Hopkinsville High School proposes to give, an extensive and nearly \$15,000. In IS65 they renewed tharaugh course of instruction, obthing from an accurate knowledge of approved text-books, and haring for its foundation bubbits of reflection and systematic thought. Students are taught not only in understand, but also to explain the subjects studied. Principles are investigated and the mental the mental the mental the mental the mental the mental the first stubilished the style of the foundation bubbits of reflection and systematic thought. Students are taught not only in understand, but also to explain the subjects studied. Principles are investigated and in the foundation bubbits of exception of the mind in the mind in the foundation of the mind in the foundation of the mind in the foundational as well as the illigation of the school is wholesome, and they were compelled to seek larger quarters. In 1882 they rented amongst the well-known houses and those who laws a large seathern of the size of the word, and all appropriate means are used to develop and condition of the stream of the ained from an acrurate knowledge

H. & C. RAILROAD.

THE CITY COUNCIL DECLINES TO AID THE ENTERPRISE.

A Case where the Minority Ruled.

The Hopkinsville & Cadiz Railread Cempany submitted a preposition to the Council last Tuesday, asking for aid to the enterprise, but the Board after a heated and lengthy discussion of the matter, refused to lend its assistance. The following is the efficial record of the action taken on the sub-

"The petition and request of the Henkinsville & Cadiz Railroad Company for the Conneil to submit to the voters of the city of Hopkinville the proposition for the city to subscribe to the capital stock of said railroad company the sum \$60,900 to ald in and many poor wretches fistened in building of said proposed road, said sum to be payable in money or the bonds of the city payable when the said road leading in the direction of lantle steamship lines of New York | Cadiz, Ky., and connected with the In cuttling the passenger rates has Chesapeake & Ohio railroad is comended. Since May 1st, the old rates pleted and ready to travel, was considered by this Board and the vote heing taken on the question of granting said petition and submitting said question to a vote of this city, the vote stood as follows:

R. W. Henry and Jno. W. Payne formed a partnership for the practice of their profession, the law, Jan. 1st, 1881.

vote stood as follows:

Conneilmen Ellis, Brownell, Long
and Starling voted age and Conneiltlenry was born and ruised in this up to be proprietor of one of the leadnen Petree, Thompson and Hill voted

primary was held which resulted in TUCKLAN and that gentleman correct-

amount embraced in the proposition to pay when the road was done.

Is there not a doubt of the legality of the issuance of bends? Judge

Landes was asked. "In 1880 the Legislature made an which provides for making appretherefore abortive."

Hew did the prepesition provide for this doubt?

"We in order to be absolutely on the safe side, did not ask for a dime until the Legislature could meet and authorize it. We were willing to take chances both before the people and before the Legislature before we asked the Council to pay us the money." Why then was there need of limitedlate action?

Simply to give slanding to the enterprise and give us a nucleus around which to work and selicit subscriptions and meet the eppesing efforts of rivn1 concerns."

What will be the effect of the rel'usal?

"It will enceurage the Clarksville and Princeten road te redeuble their efforts and will place Cadiz in a pesition to turn a willing ear te their seductive appeals."

Will it kill the proposed read?

"Not by any means. We will go alread and do the best we can. The the read and great imlignation and disappointment is expressed at the action of the Connell, which falls like a wet blanket on the enterprise. Still we will not give up the fight until every resource is exhausted." Dr. W. G. Wheeler, one of the di-

went before the Board and made an ordinary branches of trade. The carnest appeal for the proposition, prominent and influential in this and shares in the disappointment of trade. Their transactions embrace a Conneil to give the people permission to express themselves in the matter.

THE CTHER SIDE.

Conncilman Petree's objections are understeed to be wholly from a legal standpoint. He says the intention of the Legislature was to repeal the railroad appropriation clause of the charter whether it succeeded or net and for this reason he did not want to take a step unanthorized by law. This malter is one upon which legal He manufactures saddles and harminds differ and the matter may come up again when the law point shop. He fully nuderstands his trade mlnd. He wishes it understoed that

Conncilman Hill was interviewed the deor. The Carter weman called and expressed blusself as favorable to In Henry Freese, a negro desperado, a road, but thought the matter was and as the six farmers were standing In teo crude a shape to vete nuen as high standard ef excellence. He is a mususpecilingly on the platform at the yet. He wants to knew where it gentleman who stand deservedly high front clear, he opened fire with a will be what boughts will be derived in our community. His business front cloor, he opened fire with a will be, what benefits will be derived revelver. He fired five shets before and all about it before action is taken.

the C. & O. before we vote ald to a road to tap its line.

Thus the matter stands for the present. The South Kentuckian very much regrets that the project failed to received the requisite number of vetes to authorize a speedy submission to the people. It could have amounted to nothing more than an authorized expression and public road wenld have steed as a double bulwark between the Conneil and the city funds, even after the people had voted the necessary appropriation Still we are not disposed to censure the worthy gentlemen who compose squarely against the city's progress and advancement. Wo do not beleive that they will do this, but we believe that there is yet hope for favorable action. The eyes of the people are upon these Conucilmen and the voice of a captive city is calling upon them to grant the relief that lies, to a great extent, in their power.

HENRY & PAYNE,

ATTORNEYS AT LAW.

no and there not being a majority of two-thirds voting for the proposition the same is lost and the ordinance as presented by said company is not adopted."

DIGE LANDES INTERVIEWED.

Judge J. I. Landes, President of the II. & C. R. R.Co., was interviewed by a representative of the South Kentuckian and that gentleman cerrected the official minutes in some respects.

Judge Landes said that the city Conneil was not asked to subscribe

Council was not asked to subscribe

Council county. After perfecting his school education, he tanght school for ten

of his ewn district.

Mr. Juo. W. Payne, his partner, is also a graduate of Cumberland University. He read law in this city for twelve menths under Ritter & Payne and entered the University at Leband entered the University at Leb-anon in Sept., 1876. He was one of four out of the twenty applicants who stood a successful examination "In 1880 the Legislature made an before the faculty, when he entered the college for admission to the Setion 13, Article III, of the charter of mor class. He stood foremost in the the city of Hopkinsville. This was graduating class of that year. After he returned to this city in Jan. 1877, done without the knowledge of the mass of the citizens of Hopkinsville, but the attempt did not succeed. The act passed provides for the repeal of Section 41 of Article III. when as a Section 41 of Article III, when as a iii Oct. 1881, when he was employed matter of fact the article in question as business manager and associate has only 13 sections one clause of editor of the Kentucky New Era, which ssion and in the same month was wise pla elected city attorney of Hopkinsville, over J. W. Dewner, the Republican candidate, (whe had an actual majority in the city of 250) after a very neated and excited conjest. He held

ing a more extensive or Incrative practice than the firm of Henry & Payne. Both of them are energetic, capable and eloquent and bld lair to reach the highest preminence in their profession.

G. W. WILEY & CO.,

DEALERS IN FRESH MEATS, COUNTRY PRODUCE AND OENERAL FEED

STORE.

This much needed imprevement added to the welfare and presperity of Hopkinsville was established Jan. I, 1885, and lecated en Nashville St. opposite the Methodist church. The senior member of this thrm, G. W. Wiley has been a preminent citizen ef our city for nearly twenty years, people are almost unanimensly for and always a prompt efficient and rellable business man, and much is due to him for the enterprise, in establishing the above house. There are few business enterprises that have the capacity for wider range and scepe than the preduce business, Few persons are aware of the fact that to carry on this business with success a higher amount of actual business recters, was also interviewed. He knowledge is more essential than in webding and PARTY onders promptly carnest appeal for the proposition, above house is considered as most Judge Landes at the failure of the general meat and produce business. None but the freshest and cheicest meats are sold at his well managed market. As a whole the firm of G. W. Wiley & Ce, is composed of enegetic, lively and therough-going business men. They enjoy high repute for integrity and upright dealings.

J. G. HORD,

DEALER IN GROCERIES AND PRODUCE.

Judge Landes said that the city Council was not asked to subscribe stock to the branch leading to Cadiz, but that the money asked was to be pald when the branch connecting with the C. & O. was completed and ready for travel. The Cudiz connection was te be built by private subscription. The first proposition provided that \$5,000 should be appropriated to make the survey, but this was withdrawn and the whole amount and second the conject of property on the Bryan lot and at once built a handsome store, which lands one store, which lands one will a handsome store, which lands one will a handsome store, which lands one one in a hand one with a full subscription of the practiced alone until Jan. I, ISSI, when he and Juo. W. Payne, his present partner, formed a partnership. Mr. Henry is not only a scholar of high and enviable distinction, but he is an energetic, able and eloquent advocate. He stands the comper of any lawyer in Southern Kenneky, and his distinction as already gone beyond the berders of his ewn district.

Mr. Juo. W. Payne, his partnership, Mr. J. G. Hord purchased a piece of property on the Bryan lot and at once built a handsome store, which now keeps wellstocked, while he now he now keeps wellstocked, while he now he now keeps wellstocked, while he now he now he now he now he now

Spring Bonnets. Small cap tos and slightly larger bonnets with peaked brims make up the oilk of the trimmed hats imported from as business manager and associate editor of the Kentneky New Era, which relation he sustained until Jan. 1881, when he return until othe practice of the brim, while the soft erown is made of elemine, or lace, or the tricopuils on the crown.-

Two suits for \$2,000 each were filed the office, ably performing the duties thereof, until Dec., 1884, at which time he refused to be a candidate tore-election. He formed a partnership with R. W. Henry, Jan. 1st., 1884.

No law firm in Hopkinsville is domission to the ladies' car and the othcars and slightly hurt while walking on the track.

Brooklyn Eagle. SARAH BERNHARDT.

The Distressing Economy Which Dis-linguishes the Noted Actress. penditures of Sarah Bernhurdt. All the world knows that it is shern of its former picturesque extravagance, as the great actress is a bankrupt. Still, the Grange with which the critic countries and the inducer in manuer and gives penditures of his rising wrath, which is frequently excited by his opponents, rather by the swelling of the huge veius in his neek and by elutching at the collar of his uniform than hy any furious rhefigures, with which the critic supplies torical outburst. He makes the memo his renders represent a very respectable outlay. For her performances is Theodore, Madame Bernhard received daily 1,500 francs. She was not indeed left the state of this area of the world which he jots down with them and utters in so soft a tone have the weight of cannon halls. long in the enjoyment of this sum. The old Chancellor draws now to the Her creditors were very pressing. They end of his eareer; his imperial master is seemed anxions to absorb everything, slumbering away the remnant of his and complained of the Judge's allotment hours, and when he passes away, which of 900 to them and 600 to her as unreasonably partial. The netress removed mighty minister, the greatest who has from her line hotel, Rue Fortuay, took ever served the house of Hoheazollern or with her the busts of her son and sister, wrought in the political cancerns of the and an eaormous palm tree, now set up fatherland, may be regarded as pracin the Rue St. Georges. Everything tically accomplished.—Cor. Brooklyn else went to the hammer, even the fam-ous skeleton, which was sold for a few francs. Du the 600 francs a day close on £9,000 sterling a year -Madame Hernhardt has to manage to lire. The critic says her expenses are enormons. She has to keep open house, receiving friends at breakust, critics at dinner, and the strical people at supper, and greatly of the 600 frames, 100 frames is devoted at wealth. to the table. An agreeable temperature is maintained day and night through the house, and wood is dear in Paris. Twenty pounds sterling a month is devoted to this, and gas and candles bring the sum up to £30. The netress was once famous for her equipage. She hase put them all down. She hires a sspec carriage, but has a separate service of borses for the night. But she is very particular that her horses should be worthy of their freight, and she pays for the use of them and the carriage 40 francs a day. Then fo laws her toilette, and the critic sums up all the expenses with a quite unexpected item. Ho learns from the actress herself that cosmetics (heluding rouge) cost her more than £1 a day. On the whole, he thinks that by the exercise of strict economy she may save somewhat, but not over much, out of £9,000 a year.-London

MISCELLANEOUS.

-A man has been discovered in Albany, N. Y., who keeps a store, but aever advertises nor reads a newspaper. He is not a millionaire, but would make a superior juryman.—Albany Journal. -An English naturalist asserts that the hedge-hog cannot be poisoned, neither stryclinine, ar-eaie nor prussic acid having any effect upon it. It eats adders regardless of their venomous

than it will after four or tive years, when the valuable grasses run out and the surface is bare or covered by weeds, bright, ires's and very green leaves. But before one goes into strawberry enture he should take a count of the mannic he can get, and a so tind out —A member of the Yale smior class was recently the victim of a practical jake. He started for Ithaca, N. Y., to attend a Coraell University sociable and after two years' growth, than it ever will be manned be can get and a so tind out whether he can get pickers enough after two years, and unless timothy is when the season opens It is of little and the season opens.

In many quarters reports of fatal disease in cattle are circulating, most of which indicate symptoms which are caused by unwholesome food. A great lesson which stockmen and farmers have to learn is that clean foeding-

drainago and the disposal of Indispen-sable filthy matter, are very much niglected. Similar, but not such extreme eases are occurring in rural violages nud oceasion much surprise. And yet the causes are apparent to my person who realizes how easily the soil is pelluted and the springs and streams are made impure. Farmers know very made impure. Farmers know very well how prevalent the various fungoid parasites of plants are; how the grasses and folder crops are infested with smnt, rus, ergot and mill w, and how frequently the dri d folder and grain become in ldy and mis, y and partly decayed from exposure. But they do not realize the fact that in every Im-purity of whatever kind, whether from anlinal exerctions or from parasitie diseases of plants, there lurks a source and occasion of fatal disorder to their cattle. As soon as the dry fee ling beglus, and eatile and swine are turned out into the stubbles and stalk lields, or into the frozen, water-soaked mandows, or are confined in peus or yards, then disoases break out, and all; are of the inalignant febrile type, which indicate blood poisoning by parasitic germs conveyed into the vital fluid by the food

To seek advice from the veteriaar surgeons or relief from medicines is he ginning at the wrong end. The evil must be remedied at its source. No pure' stream can flow from a golluted pure' stream can flow from a polluted source, and the whole, course and method of feeding stock must be reformed before' the trouble can be averted. The losses every year are enormous. The indirect damage is as great as the direct money losses by the deach of valuable animals. The cred't of our trade is impaired, and the loss of aniillon head by disease which is in a million head by disease, which is in fact a very moderate estimate of the sum total, injuriously affects the value of the seventy or eighty millions of cattle and swine which escape. The pres-cut soason seems to forbode a greater loss than the past one, for the area over which disease prevails spreads over nearly all the States and Territories from the Atlantle to the Pacific. It is wise that stockmea should be ularmed and watchful, but from anything which occurred at the recent general convention of cattlemen it does not seem that those most interested look deeply enough into the matter to realize the actual source of the trouble or the right point at which to attack lt .- N. Y

Largest Dollar Weekly

THE CHICAGO WEEKLY NEWS is now an 8-page, 64 1. column paper. It is the largest "dollar weekly" in the United States. Its eight broad, long pages present each week a mass of choicely selected matter containing much to suit each of the varying tastes of the family circle. First and foremost, it gives all the NEWS, complete as to details yet concise in form. Its MARKET REPORTS are unsurpassed for completeness and trustworthiness. Special attention is given to agricultural and home matters. Every issue contains sev-ERAL COMPLETED STORIES and a regular installment of an original story by some well-known English or American anthor, exclusively seemed for The Chicago Weekly News. It is an independent paper. It recognizes the utility of political parties as means for the accomplishment of proper ends, but it declines to regard any mere party as a fit subject for unquestioning adviation. It is not an organ, and therefore escapes the temptation of condoning the questionable under the pressure of partisan allegiance. It is unbiased in its presentation of all political news. It solicits the patronage of intelligent, thoughtful, houest people, who love country more than party. In all departments it aims to present an enterpriling, impartial and entertaining family newspaper of the very highest grade. Its size and character considered, it is now, more than ever before, the cheapest weekly in the United States. ONE DOLLAR A YEAR, postage included.

HOPKINSVILLE, KY.

HER SCHOOLS, MANUFACTORIES AND

A SKETCH OF A GROWING CITY.

Something About Her People.

The city of Hopkinsville is situated upon a line that separates two sections of country entirely different ln every respect. To the north fle the hitls and valleys where the early hunter delighted to chase the red deer and other game ninety years ugo. The country is nueven and Ill-fitted for agricultural purposes, excepting on the water courses where there are some very time farming lands The hills are covered with a wealth of fine timber and filled with veins of the fluest coul.

Towards the south extend the famons farming lands of South Christian, rivailing in fertility the richest blue-grass fields of Central Kentucky. With these great natural advantages-coal and timber on one side and rich farming lands on the other-Honkinsville must some day la thouenr fiture become a manufacturing center of importance. Of late years a number of Infant Industries have been established in the city and almost without exception they have prospered and widened their scope and exist to-day as monev-making establishments. But of these more hereafter.

The city of Hopkinsville is situated upon several fills. The malu portion of the business part of the city Is located on and between two of them. The Court House sits upon the northern one while the business limises stretch to the south filling the valley and reaching half way up the other, three humbred yards away. Intersecting this, the Main street. are a number of cross streets, several of which are important business thoroughfares. Whidling Its way from north to south is the West fork of Little River, but a square from Main street. There are no fusiness houses west of this stream and but few west of Main street. The second business street in Importance is Nashvifle, which leads to the depot of the L. & N. Rullroad, half a dozen squares to the east of Main street. The valley between the two hills on Malu St. was onco a ravine and where the Opera House now stands the earth was excavated for 15 feet before solid dirt was reached. On the lot where the South Kentuckian office is now being erected the soll Is ten feet from the surface and many alls, pieces of boots, shoes, crockery, etc., etc., prohably thrown into a slnk-hole fifty years or more ago From this It will be concluded that the site of the city was not chosen on account of its beauty or its natural adaptability, but our fathers never dreamed that the little town of elghty years age would ever aspiro to the Importance of a city. Perhaps In half as many years from the pres ent time our grand-children, in the bustle and confusion of a great city with its hundred thousand inhabitants, may recall the Hopklusville of to-day and bless its enterprising citlzens who alded in developing its resources and premoting its Interests when its rivals were trying to crush it, and thereby turned the trembling balance lu its favor.

out li 1797, though the matter was not submitted to record until Sept-13, 1799. The location of the town was determined by the never-falling spring between Main street and the river. The ground upon which the represented in this issue, county seat was located was denated almost to a man. Il is to the proby its first settler, Bartholomew Wood, the grand-father Dr. Il. S. Wood, one our leading citizens. The fown sent this review of the business interwas designed as the county seat of ests of llopkinsville. Christian county when it embraced several of the adjacent counties of today. The name given it at first was Elizabeth, but this was changed in 1801 and the lown was named in honor of Gen. Sam'l Hopkins, an offleer of the Revolutionary war. It bridge House, a private boarding would be a tiresome and a difficult lask to follow the town through the march of time. It had become a considerable little town prior to the war, but it was not till after the war was over and it had a rallway connection with the outer world that the town began to grow. In 1870 the population was something over 2,000 and in 1880 it had doubled itself, and was put down at 4,229. Since that time the city has grown more than ever and if the same rate of increase continues her population will not to Chairman; W. M. Hul, E. H. Long, breaking in pieces. And of all sub-far from 10,000 live years hence. The F. J. Brownell, Wm. Ellis, J. M. stances the most stubborn in this respect city has been almost entirely burned Starling and Gee. t). Thompson. down within the last three years. In 1882 seven squares of business houses were destroyed, last July two others by about 200 majority, the council 7,000 feet, while the latter might form followed and in December still another, making ulne entiro squares within a little over two years, besides several other fires of considerable magnitude. In almost every instance the buildlngs destroyed have been replaced by modern brick structures, which are

an ornament to the city. Tho last

KENTUCKIAN.

elty of the State.

THE PERIOD SCHOOLS

The public schools have done much to promote the advancement of the city, both whites and blacks baving bulldings and tauttlessly conducted free schools. The white public school building was creefed in 1880 at a cost of over \$13,000 and opened in the full with Prof. C. II. Dietrich us superintendent, ander whose management it has ever since been conducted. The schools opened with 321 pupils and seven teachers Feb. 7, 1881, and to-day the twelve rooms are crowded and the enlargement of the building is a question that must be seriously considered in the near future. The enrollment is now about 700, notwithstanding the fact that there are two colleges and a high school in the city, all well pat-

The colored people have a building which was creefed at a cost of \$1,000 just begun to read a copy of the Christian Advocate when a benevolent-look and with a competent corps of teachers maintain an excellent school ten mouths in the year.

In 1883 the number of children of the school age in the city was 1317-611 stranger fished a half-dozen little pillwhite and 702 calored. In 1881 the number was increased to 1575-770 white and 805 colored. This shows in one year an Increase of 17 per cent, roll of bills from his yest posket, selected due largely to the inflax of immigrants attracted to our superior educational facilities both in the free schools and colleges. As it has been a year since the census was taken, we may safely place the monher of school children in the corporate limits at 1800 at the present time.

THE POPULATION ESTIMATED.

There has not been a complete cenors of the city taken since 1880 at which there were 4,229 inhabitants. In 1831 the legal voters numbered 1228-682 white and 516 colored. From the data faralshed by these figures and the school reports, the present population is estimated at 5,500, which we believe to be very nearly correct. The city extends in every direction one mile from the court house and vacant lots are rapidly filling up with dwelling houses in every part of the city. Some very degant residences are to be seen on forc, but the man pretended not to nothe fashionable streets, a number of lice it. which have been built within the tenement fromes continues to exceed take your pick. You've got a chance the your pick. You've got a chance to make \$10 in clear money." the supply, ofthough scores of cottages for rent are put up every year.

MANUFACTURING INTERESTS. At the present the manufacturing Interests of the city are represented by three large flouring mills, two ice factories, two hogshead factories, one broom factory, three brickynrds, would be different. But I see plaid would be different. But I see plaid which grinds sand rock into pure sand for building purposes. Ifere-

Not the least Important enterprise in the city is the foundry and ma-chine repairing establishment, a put this \$50 bill in this open and a \$10

sketch of which appears elsewhere. The Building and Loan Association nay perhaps be mentloned under this head. It is one of the most ha-

portant factors of the elty's progress. THE MERCANTILE INTERESTS.

The mercantile husiness of the city Is of a strictly, local character and the stores will compare favorably with those of any of the smaller cities of luck. the state, both in arrangement and in the stocks of goods contained in them. The stocks of goods contained in them. The stocks of goods contained in them. The swendier opened every box, but ing progressive and energetic. The better class of dealers are liberal ad-Hopkinsville was prebably laid vertisers, and their success is to be attributed largely to the judicious and effective use of printer's ink. Our best and livest merchants and business men will be found gressive business men of the city that of we are indebted for the substantial of co-operation that enables us to pre-

OTHER MATTERS. Hopkinsville has three banks, the Bank of Hodkinsville, the Planters being the highest monument on earth. Bank and the City Bank. There are It is over 500 feet high. But in the next the Lewis House, beside the Bur- a tower higher than anything made or house with hotel accommodations.

THE WRONG MAN.

A Coufblence Game Which Did Not Pan Out Well for the Originator.

A tall, red-haired young man with an innocent face and a black necktic sat flying trains of the Pennsylvania Rail-road bound for Washington. He had lng middle-aged man entered and sat down beside him. For an honr the young man read his paper and the old man watched the telegraph poles go by. Recoming fired of this amusement, the boxes out of a deep pocket in his over cont and placed them in his lap. The young man put away his paper and eyed his ne ghbor, who, pulling out a note an I placed it in one of the pill-

"Do you suppose you could select th box containing the b 112" he asked of the young read with a smlle, and a look that seemed to say, "Let us be socia-

"Doo't tlank I could," laconically ro-"Doe't Houk I could," Accordingly replied the latter, pulling his mustache."
The stranger himself picked out the box, took out the bill, and put a \$40 note in its place. This time, however, a corner of the bill was left steking out after the cover had been put on the box. "Now do you think you could pick it ont?" he said, showing his teeth, "Of course I could," replied the young

man. "Wel', il you will give me a dollar, I

will let you try."
"O, no, I wouldn't do that. You're not sharp at all. Yo evel for a corner of that bld stleking out of the bex so any fool could jick tout."
"Why, of cour c." said the sharper, apparently confused by the discovery. "How (ould I make such a blunder?" They apu) be took out the \$10 bill and put in its pluce a tright, new \$20 note. The corner of the bill stuck out as be-

"Now will you try it?" he continued. which have been built within the after win as for some distinct and last few years. The demand for landkerchief, "Give me a dollar and

The yeung man's face did not show the least a finat on at this 'declaration If there was the Legioning of a smile hidden under his mustache it did not

reveal itself when he answered:
"You are a state ger to me. I don't
want to take \$10 ont of you; it
wouldn't be ger't marly by and to do two carriage factories, two cabinet shops, two cady factories, and several smaller concerns that supply local trade. A sand marking least statement of the cover just as you did stored to the cover just as you did Is ten feet from the surface and many curlous articles were dug up by the local trade. A sand-machine has returned the other. You ought to go and work curlous articles were dug up by the local trade. A sand-machine has returned up a farm awhile, you ought.

tofore the sand has all been dug from The red headed young man took the banks. "Perhaps you would lke to try your

note in this box. Give me \$5 and you shall try your bick."

The man reluctant'y pail over the money, and after the young man had shaken up the boxes lichis hat, took up one from which the green corner of note appeared. When he had puffed o'l the cover he found it contained only a plece of a revenue stamp. Ills face fel at the discovery.
"Try It again," sabl lds tormentor.

Ho tried again, but with no better

"Take the lot," larghed the young

The swind'er openoa every box, not a sign of a bill appeared.

"ffere are the bills, safe in my pocket," said the bright young fellow, the notes from his vestproducing the notes from his vest pocket and shaking them in his neigh bor's face.

"The pext time you want to try you game on a stranger don't piek out a man who is in the same business in yourself.

The red-baired voutb was an expert confidence man from Frisco.—N. Y. Mail and Express.

GREAT TOWERS.

The Project Which is Intended to Rive the Tower of Habel. Our great monument at Washington, erected to the memory of the Father of his Country, enjoys the distinction of two hotels, the Phonix Hotel and Paris exposition it is proposed to creet imagined since the days of Babel. It will be more than 1.100 feet in height houses in the city and a number of grain dealers and other commission merchants.

In the total control of the great pyramid of Cheops. The constructor will be M. Bonrdais, the same who built the famous Trocadero Palace at the last seven conneilmen elected annually in with different kinds of, unterials. The limit be places to man's power of building upward is tixed by ascertaining at what time the lower part of the struc-ture will give way beneath the load resting upon them, either by becoming edont of shape or by cracking and is not iron, as some persons might suppose, but porphyry. The former can, as M. Bourdais believes, be used for a the foundation of a pile fully a thousand leet higher. But this is supposing that the pyramidial form of construction is used, which is, of coarse, the most solid and durable. This could never be ad-

> The Leading Houses of the City and a General Review of the Business Interests.

J. M. HOWE'S

There is no better known business pot in the city of Hopkinsville than Howe's Jewelry Palnce, corner Main and Spring Sts.

This house was established 23 years ago and has ulways kept the lead as Hopkinsville's "Dtd Rellable" In the lewelry line.

There are few industries of the city which the Surth Kentuckian will record that require a higher or more reflied taste in their operations than that of the fewelry business, but the embent success which has aftended the reliable establishment and conducting of this branch of trade by las. M. Howe is a sufficient evidence of his thorough adaptation to its regnirements.

The above popular establishmen is kept constantly well stocked with a full assortment of jewelry, diamonds watches, clocks, spectneles, etc., all of stundard makes and for sale at prices uniformly low and satisfactory.

ROUKFORD WATCHES.

Besides importing every kind of dewelry for ladies und gentlemen, such as wutchchains, car-rings, sleeve buttons &c., aff in novel and beautiful designs. Mr. Howe, selfs as a specially the famous "Rock ford" quick train watches, which are now considered the most reliable and durable time keepers in the market. They are not, of medium size and snitable unundson. for both open face and hunting cases and are well liked by every one who wears them. They are now being than county. When quite a young creams, caramels, and candy, etc., and wears them. They are now being man he opened up a saloon la this to give a more exquisito flavor to give the control of the wears them. They are now being adopted by Railroad men as the best watches minde

PERBLE SPECTACLES.

The perspiration poured from the sharper's forelead. He had eaught a Howe has the only Johnston Patent tartac, and had a hard time of it, too.

The perspiration poured from the fitting of spectracles to the eye. Mr. Founded by broad acres of flet Mr. Edmundson's store a top time was on the property jeweler and engraver, he is therefore prepared to do all kinds of repair-

largest and handsomes stables in the State. He has had 20 years experience in the livery business, and well deserves the patronago of the puolic.

Anyone desiring a home-made or Eastern buggy or barouello ean secure a bargain by calling at this ofM. C. FORBES,

ONE OF THE LEADING BUSINESS MEN OF HOPKINSVILLE.

Mr. M. C. Forbes, the subject of this sketch is one of the most phe-nomenalty successful business men In Hopkinsville. He came to this city in the year 1871 unheralded and n stranger, and began working as a blacksmith. By hard work and close economy be accumulated a sing lit-tle sum and in 1875 established himself in the planing mitt business, which runs under the firm name of

Forbes & Bro.
The establishment consists of lumber yard, planing and saw mills and a factory that manufactures sash, doors, blinds and huilders' articles generally. There are circular saws, mornising machines and ingenious contrivances for doing all the deli-cate work of such an establishment. Everthing needed for building a house, they furnish from the crude lumber up to the completed portions of a dwelling or store. They mann-facture as a speciality wagons and plows, of the former the famous "Excelsior wagons" have gone into several States. He manufactures to order doors, windows, sash and blinds and to complete the supply he keeps and to complete the supply he keeps a stock of huilders' bardware, such as locks, hinges, screws and also farming implements. He has a vast lumber yard where he keeps hun-dreds of thousands of feet of lumber, Including framing, flooring, weather boarding, celting, shingles, etc. An especial feature of this establishment is the thoroughness of the work done, using the best material and the processes all being executed with sern-pulous care and the exercise of the highest mechanical skill; the work turned out is first-class and durable and evinces the extreme vigitance of supervision that marks the administention of this establishment. Such an enterprise, handled as this factory is, is an bonor to our city. It is a moddaring and sagneions dealer, with thorough going business men fine judgment and knows when to we take pleasure in recommen make large movements. Mr. Forbes' enterprise is shown in the fact that he seeks trade out of his own domain and with a daring and successful hand invades rival territory, clutching patronage from abroad and steadily broadening his scope of trade He has, by his own unaided efforts from a small beginning built up his business and is justly cutitled to the

representative self-made men of Hop T. M. EDMUNDSON,

prominent recognition as one of the

THE VETERAN SALOONIST. Perhaps no llquor dealer in Hopchisville hus established a higher reputation for correct dealing and absolute reliability than Tom Ed-

He was born and raised In Chriscity in 1868. Saloons in those days ecial attention is given to the lings scattered here and there, sur-

Mr. rounded by broad acres of lields.

Mr. Edmundson's store at that ported upon two chairs and from ever sold in Christlan county. In Magazines and periodicals of the day those days beer sold at 10 cents a from the dime novel to the Interesting glass. Before many months passed and ins other saloons handled it. Men from writers. the country came miles from home

opular beverage.
Mr. Edmandson's business gradloous were not so plentiful, he sold of attraction tastefully arranged that from 7 to 10 kegs a day for several months. To-day presents a vast contrast from 17 years ago. We have now one or more saloons on every principal business street in the city

Mr. Edmindson's "Tobacco Ex-change" saloon on Nashville street Is the most popular and respectable resert in the city, and commands the largest trade. To give the public an there is more room for decelution and fraud than the jewelry hustness, as the majority of the people know nothing of the quality of jewiry, but, nothing of the quality of jewiry, but,

llowe has always made it n rule in whole community and surrounding counties as a merchant of integrity, curtesy and enterprise, and is one interpresentation. LIVE CITIZENS.

MORE ABOUT THE PROGRESS. IVE BUSINESS MEN OF THE CITY.

Men Who Believe In Enterprise and Printer's Ink.

M. LIPSTINE.

A few days ago a Serth Kentucktax reporter while on Nashville St., chanced to meet Mr. M. Lipstine, one of the representative business merchants of Hopkinsville. Without stating that he was about to be interviewed he chatted picasantly upon the topics of the day; in the course of his conversation, as was his object and purpose, he turned his mind back to the time of his entering into mercantile pursuits in Hopkinsville. Without hesitation or the least sus-

"Did von begin on a small seale or did you came to this city prepared to buy the city, asked the reporter?"
"Neither, when I landed here I was without a cent and did not know where I would get my next meal or lay my head for the alght, but kind providence directed me to a family of my nationality and there I told my history and was kindly treated.'

the scribe?

Well yes, fortune has smiled on me, but not until I had years of experience and a pretty tough time. I began business in the lilde, wool und bone trade and soon wennuchted enough, by close economy, to purchase a small stock of dry goods. On still continued to deal in Idde and wool. I have made many changes in business, that is, I have taken in with me partners, and am now managing a store of my own. Have been bi business 23 years, in Hopkins-

"Your business commands healthy trade the whole year round

does it not," asked the reporter?
"Well, as a general thing compared with other classes of business dry goods plays no insignificant part, oin fact," continued Mr. Lipstine "the trade in dry goods is the most important branch of commerce in this country, and exercises a larger influence than any other braich of traile. The varieties of priicles cuibraced by the general term dry goods are almost exbrustless, but the materials entering into their construc tion are principally cotton, wool, flax llesides the business requires as great an amount of good judgment, executive ability and keen foresight as my of the leading mer-

cantile pursuits. Mr. Lipstine talked very enthusias-tically upon the subject of his line of business and fully understood his argument, which was convlucing.

He reports his trade comparatively good considering the dull season ins passed and anticipates better times

this spring.

-aagacity, notwithstanding many reverses (principally by fire) he has risen to the distinction of being one of fine business qualifications.

the leading business men of the city of Hopkinsville.

In the year 1835 Mr. Thompson engaged in the manufacture and sale of thruiture and has been at the head of that line of trade continuously nntil the present or about fifty years. From 1838 until 1870 he was asso-

ciated with H. H. Coleman.

When Mr. Thompson began business in this city, a few small stores and shops were all there was in the way of business for several years, and at that early date the growth of the place was very slow. It was comparatively a small village, the number of the population hardly exceeded 1,500. As the population in-creased, business grew and devel-oped with the demands of the times. A few years later schools were established and elimehes organized, and the place kegan to wear the ap-

pearance of a town. Mr. Thompson's establishment is one of the "land marks" of Hopkinsville. The manufacturing of furni-ture is a branch of trade that is usually considered one of the best and is classed, to some extent, as one of the Inxuries of life and is therefore af-fected by any depression in business circles. Mr. Thompson reports bis trade good. There is a good steady demand for common and medium pleion that he was talking to a reporter, and in answer to questions he grades has not been so active. The id:

"Yes, I came to llepkinsville in mid, with bright hopes for the spring

the year 1862, but emigrated from Germany at the age of 16 years, in 1812. First settled in Middletawn, Ky, in 1818. Married in Washington Co., a Miss Tams, of the obly Yirginda stock, removed from there the most elaborate and costly to the Virginia stock, removel from there to Owensboro in 1813 and lived there plainest and least expensive. In parliar, the fall of 1862 when I came to Hopkinsville and have resided here every sluce."

"Did von begin on a small scale or "Did von begin on a small scal is really unequaled, and in this class he enjoys a wide-spread and merited reputation. All his stock is remarkable for excellent and artistic work-manship, and liberal prices. manship, and liberal prices. His establishment is a handseme one, equal to any in the State. He can furnished cottage or a palatiat resilence. He also manufactures and "Many changes have taken place deals largely in collins. G. E. GAITHER.

DRUGGIST AND PHARMACIST. The tidiest and handsomest drug

fore in the city is that kept by the above named gentleman. His store is elegant, well lighted and goods arranged with peenliarly fine taste. Mr. Gaither keeps atways fresh goods and his place is noted for convenience and neatness. A full stock of every kind of medicine and every ingredient for medical purposes is kept on land. His thre brands of eigars can not be surpassed any where in the city, also u complete and varied stock of school books and stationary and all the paraphermalia that belongs to the book business.

In addition to the above Mr. Gaither has a pharmacy department, aml this important specialty of compoundprescriptions, is an especial feature of his business. The com-ponents used are the freshest that money can procure, and his scientific manner of compounding prescrip-tions has won for him a while reputa-

tion and the confidence of the public, The business premises eccupled by his popular drug house are admirably situated and adapted for this trade. Drug business as we all know of this or in fact any city, is one of the most important factors in the general make up and exercises an infinence not surpassed by any other branch of trade.

The department of drugs in this place is comprehensive and embraces paints, oils, dye-stuffs, varuishes, American and foreign chemicals, and proprietary preparations of his own manufacture. His facilities for doing business and his superior qualifications for its management are mana-passed by any other honse in the city, while his experience and business sagacity can not be excelled.

Mr. Ed Boyd, formerly with Gish Garner, is an attache of this enterprising drug store. He is a capable pains-taking gentleman, worthy of his employer's confidence and gives his business careful attention.

By close economy, strict attention to business, working for the interest of his employers-and, at the same time for himself, Mr. Gaither soon accumulated a handsome sum, and concluded to go into business for himself, after renting his store in the norgificent Howe block he went east and bought with eash down the largest, hamlsomest and most affracive stock of drugs ever shipped to his city. "His trade rapidly increased

His large experience, energy, cuterprise and honorable dealings has won him a well carned reputation. He is hamlsome, popular and stamls deservingly high in the communiPETER POSTELL,

TRANSFUSION OF BLOOD.

The Entlevelsom Relative to this Method of Treatment Dying Out. By this is meant the Introduction of blood from the veins of a person, or an animal, into the reins of another person

There have been great changes of opinion as to the value of this treatment. Anciently the blood was regarded as the life of the man, or, as containing the Ilfo in some mysterious sense, instead of rious tissues. Hence, long before the fact of the blood's circulation was known physicians tried to supply new life to the body by introducing into it fresh, healthy

blood from another man or animal. late as the seventeenth contury learned physiologists disensed the ques tion whether the introduction of sheep's blood into the dog would not give wool eible person mild; or whether the bloed of a young person would not restore youth to the aged. In the century that sion were made on unimals with these

ends in riew. Hetween thirty and forty years ago another was frequently made, not only In eases of loss of blood, but for many

HÓLLAND'S OPERA HOUSE.

This magnificent building, located in the heart of the city, was creeted in 1882, by Mr. R. H. Holland, a young gentleman of wealth and en-terprise. It is a magnificent struc-ture, both outside and inside and is an ornament to the city and a just source of pride to all our citizens. The excellent theatrical facilities thus afforded have seenred for our city a number of thist-class altractions durlng the last three years. Mr. Rodgers is the manager and is the very man for the place.

M. HANNA,

PROPRIETOR OF DUR FOUNDRY AND MACHINE SHOP.

In the year 1878 the above foundry was established in this city by Hanna on his business.

Since the time of the opening he but before long it commanded an ex-& Co., at first doing a small business,

vative in business transactions, he spares no pains to secure bargains for his customers and watches the confidence of the commercial world for this pablication. market with the greatest enre.

The confidence of the commercial world and built up a large trade. The importance of this trade can hardly be goods in notions, ciothing and laney goods as attractive and complete as ever have been offered in Hopkins-ville. In summer-straw hats ticles of which oven our own eitizens are entirely ignorant.

Mr. M. Hanna is a practical and experienced man in his line of our commerce. His thorough knowledge and inventive abilities which he pos

coffures.
The colors in new silk gloves range from dark to p le shades of modes, tan, russet and not brown from filbert and hazel to chestant, golden brown, grays fro a slate to pale Russiaa, and many intermediate tint of gray, bluo, amber and anastle .- N. Y. Sun.

SPRING DRESSES.

So as of the Siriking Features of the Late Styles of Dross.

demands of women. Designed for a different sphere in life from man, The first importations of dresses for the spring and summer months show instincts linely tempered with the more changes in small pleta is than inartistic, it is more than evident that their general outlines. The very bouffshedemands for her best and fullest mit e eet now popular is retained, and development a training adequate to out e eet now popular is retained, and eyen increased; the back drapery ls very full, au I may be either straight or brached up; and the basque is short, with high darts that give a full bust and her aims and nature. This training Bethel Female College claims to offer to the aspiring young ladies of our land. Under the able guidance of touriere in many new skirts is much that pioneer of Kentucky education, Prof. J. W. Rust, the college has entirely by the small cushion pad sewed grown in usefulness and influence. to the belt, without the use of steels across the skirt lower down, as the latter break the straight effect of the box-plated back breathby. Florings as triumings are first giving place to that folds, thicks, braiding, passementerie, and, above all, to the various nev laces of wool, silk, thread, or tinsel, which are laid smoothly on the front nad side breadths of the skirt, forming merely a border, or else covering these breadths as far as they are visible below the drapery that crosses them at the 50p. The wool guippre laces known as Angora laces are now seen not merely in trimming widths, but in skirt fronts that are half a yard or three-fourths of a yard in depth, with a scalloped lower edge and plain selvedge at the top. These are used over wool fabrics of line the said sheer quality, and will be the fushionable "transparents," just tas beaded lace fronts have been over the said satins that are now being replaced by wool goods even for very dre sy costumes. Sometimes this flat lice front is of the color of the wool dress, and sometimes it is in contrast with it; thus white wool gaipure will be ween over pale blue, pink, and lavender eashmers or albatross cloth for afterm on daysses; cream-colored wool lace willtrim brown woolens of darker tone: rese la cashmere will have reseda lace, nul black hison cloths will have black Angora lace, which may be made gay by placing bright puppy red wool in der the lace, and thus displaying to advantage its open pattern. - Harper's

A genuine crocodile has been cap-tured in Florida waters, at the mouth of Jun per Creek. It was eighteen feet right tuches in length, which at the m'ddle of the body was larger than au ordanicy barrel and weighed something over 800 pounds.

-A physician of Pelham, N. H., collected some dost from the walk in front of his house after a thunder shower, and sent it to the Popular Science Monthly laboratory for examination. The paper says that it proved to be nacteuric dust, largely composed of sight of it, and, selzing the cat hy the nack, killed it.—Washington Star. of his house after a thunder shower,

It is a rare occasion when a representative of the men who laber on the farm for wages undertakes to present in an agricultural journal any viows he may cerns his class. For this reason we "A Hired Man" talks back quite

We do not by any means indorse his inferences, however. Even though the farmers, as a class, were proven to be the close-fisted, hard, seltish mon the writer would have them appear, we do not quite see that the indictment would preve that the average birrd man is not an ignorant, lazy, dissipated fellow, as the ngricultural papers and the "ta'k-ing" members of the farmers' club too often declare him to be. And ia judging the agriculturists and their helpers we are glad to differ with both sets of mea in their estimates of each other.

That there are to be found among farmers some very poor specimens of manhood-men who are utterly devoid of honor or principle in their transac-tions with their fellows—can not be denled. So there are among men en-gaged in any other business or professien. But, a) a class, agriculturists are fashionel morally and mentally very much like the rest of the human race, and endeavor to deal fairly by those with whom they have business re

HETHEL FEMALE COLLEGE.

A desire on the part of the Baptists of Southern Kenlucky to have an ongst them an institution of learning, where their daughters would

have all the advantages et higher ed-neation, culminated in 1851 by secur-

ing a charter for the Baptist Femals Instinte. In 1854 steps were taken to creet the present buildings. Dona-tions were made by the brethren and

triends in Hopkinsville and through-out the Bethel Association. The mency expended in the grounds and huildings was \$30,000.00. Jno P. Samphell, Thos. M. Buck, John Buck-

W. Rust, 1857to 1864; Rev. f. G. Keene, 1864 to f867; Rev. Juo. F. Dagg, 1867 to 1874; Pref. J. W. Rust

was then re-called to the Presidency and has occupied the position ever

ries in Kentucky and the southwest.

The annual attendance has averaged

Wile the planter, R. Slaughter, R. Slaughter, R. Slaughter, R. Shadel college. This charter. In 1858 the flatting was re-chartered as Bethel Female College. This charter work than he is entitled to from his help, and in various other directions is naxious to get something for nothing.

The truth of the matter is that the farmer readily learns that success can only be purchased by the constant practice of economy in every department of his business. Circumstances will generally compel him to pay wages maa nature; that is all. that repre ent the market value of labor; he would be faolish to pay a higher price for the he p be needs. It matter that regulates itself. Hired help will generally abandon a situation where there is danger of starvation. But we believe that, as a rule, farmers have enough food on their tables, and and the quality and variety of the fare is above criticism. During the season of raising and harvesting crops, many The College is located in the western suburbs of the city. The main building is of brick, three stories high, with basement. The grounds are beautifully shaded, and the whole blace is home like and attractive. The lot contains six acres.

The patronage of this institution has been drawn from the best families in Kentucky and the southwest.

On the other hand, have string erops, many minor matters on the farm have necessarily to be attended to early in the morning or late in the evening. But there are the sands of wage-workers who would only be too glad to be assured that their services would not be called for during the hours which the farm laborer can call his own.

On the other haad, the farmer's man undoubtedly has to work hard and his 10 pupils, about 40 of whom have pay does not begin to be as big as that heen boarders pay does not begin to be as big as that of the President of the United States, lethel Female College has grad-uated more than 100 young ladies, many of whom preside over elegant homes with all the grace and dignity homes with all the grace and dignity of their ripe woman-hood.

Five young ladies will be graduated at the close of the present season:
Miss Hattie Mathis; Miss Mary Richardson, Pembroke Ky; Miss Mary Blaine, Crotten Ky; Miss Carrie Cox, Belleview Ky; and Mtss Amie Smith.

On Water and privations of the present season: the farmer's helpers are a pretty good lot of contented fellows, proud of the physical strength and rugged bealth that comes from their simple mode of living, eager to display ability to perform well the munifold duties of their calling, and even to occasionally help the women-folk at the farm house with Some of the new spring hats have figh above hie same. Some of the new spring hats have figh Tyrolean crowns and narrow brins looped very high on one side with a space in the loop for the trimmings.

New spring wraps for dressy teilets meet Sermon and Hon. W. F. Brewards with earling and even to occasionally help tho women-folk at the farm house with sighted to take a keen interest in affairs around the place and in the success of the annual address.

The Faculty consists of Prof. J. W. Rust, L. L. D. President; Prof. J. M. and are in modified dolman mantle. Rust, L. L. D. Presideut; Prof. J. M. Daniel, A. M., Juo. O. Rust, A. M., Wicked, dissipated and lazy. But it wends be unfair to condenan the thousands of Industrious, paiastaking hired inl Miss Ada Kenuedy, matron.

SECTION HANDS. The Men Who Mend and Keep Safe the

Iron Illghways. Since the death of General Manager S. S. Merrill, of the Chicago, Milwankeo and St. Paul Railroad, and the publica- feel good from the soles of your boots to tion of his history, a very humble class entertain on topics that especially con- of ruilroad employes has been made the it? When I was a boy, the school I know many instances where tips have subject of much inquiry. They are give the grist of an article, in which those who attend to the general track repairs of a railroad line. To show roads in this country. One day he asked for work at a railroad office, and,

when questioned as te what he could do replied: "I can use a shovel and pick." He was given work with a gang ol vay graders, and ia 1858 was made man of the gang. By sheer hard

work he earned promotion after promo-tion, in turn becoming combactor, paymaster, assistant superintendent, chief superintendent of a division, assistant general manager, and then general manager. This position was tendered him in 1865. He was not a man of liberal or even a common school education, but one of practical ideas, sound commoa sense, and judgment. He knew every round of the ladder, and for that reason was an excellent manager of men. No one was ever more admired and respected by those under him. His is a remarkable case, but still it is only

one ont of many similar instances.

The section hand belongs to the owest stratum of vailroad employes, and yet he is, to a great extent, a skilled laborer. Although his work is of a routine nature, still he must tave the intelligence to meet any emergency in his path of duty, and be able to overcome difficulties. This department of a valloud is one of the most impartant, for the condition of the road depends upon the work done by the of a division down to the lamble spike-driver. For information cencerning these workmen Assistant Engineer Alex. T. Gest, of the Pennsylvania Railroad,

vas interviewed vesterlay afternoon.

"We have on this division about eight hundred mea who have immediate supervision over the tracks," said he, There are four divisions on the road, but I could not say how many such men are employed. In this division there are five supervisors, each of whom have under their charge from twelve to as a gang of track bands, varying in

number from seven to twelve.

"A foreman, when picking a gang, takes the best and most experienced men. If I see ten men carrying a fivehnadred-pound ra'l I get at the oninion that it is about time six of them were d'scharge l. I have known four strong men to walk right off with a call thirty feet long. That is the work the green hands are put at until they get over their awkwardness, learn how to be spry, and unit falling over each other's hardners, shovels, and other tools.

"Fastening on the connecting bars between the rails is very particular work and requires care. The expansion and contraction of rails must be considered. and they are laid accordingly for winter and sommer temperatures. Frogs and switches require painstaking and must be properly adjusted. Then besides track-hands we have watchinen. There are sixty men doing this sort of duty at night between here and Altoona, and quite a number by day, as at Horse-shoo quite a number by day, as at Horse-shoo and other special places. The watchman goes along the track after every par, holt, rail and switch. If there is anything wrong he reports it to the nearest telegraph office to the foreman of the subdivision, who always lives along the subdivision, who always lives along the subdivision, who always lives along the subdivision. track, and, if he has not time te notify anyone, he displays a red light or tlag.

boss or n foreman at a salary of from \$50 to \$60 a month. As these foremen generally live in the country, this is good pay. They have few expenses, and a great many of them own their own house and four or tive acres of ground to raise vegetaides. Then, an intelligent foreman will be advanced. Mnny of the best railroad usen of this country have started where they are." -Pittsburgh Dispatch.

BETHEL FEMALE COLLERE.

THE DEER.

patrons and the general public.
President Rust knows and realizes He is quick to catch any new idea and has always been the first to in-From long experience and close observation of the habits of game, old troduce into our schools any telling novelty in the constantly perfecting system of instruction. He has sur-rounded himself with a faculty of hunters know exactly how and where to the conditions of the weather or natare of the country. They know when culture and meril, who are abreast deer will be found in the swamps, when the times in their methods for the higher education. With that rare genius, which is horn in the teacher, they seek the elevated ridges, and when they need be looked for only in the val-Prof. Rust never fails to Inspire his leys and gorges. If a snow storm ls young ladies with noble ambitious, to rise higher in the acquisition gathering the hanter knows it is useless to expect to start a deer on the ridges; for at least three days before such a storm the instinct of the animal warns And this at last is the great test of it of its approach, and the deer leave au institution, not how much its l'ac- the hills and enter the swamps, where they huddle together antil the storm has ulty sneceeds in cramming down the come and goae. If the weather grows pupil, but the great question is, has it given them lofty aspirations? has colder after tho storia they ugain seek it created in them that thirst for knowledge that will lead them into the kills.

A deer's eyesight is not sharp, but its sense of smell and hearing are most aente. The snapping of a twig will startle the game and send it flying over the hills before the hunter is within gunshot, and the gentlest breeze blowing from the lunter will enrry acties of his presence to the sensitive nostrils of deer, although he may be half a mile away. The approach upon a deer must therefore always be against the wind. No matter how strong or cutting the blast, the hunter must face it as he stalks, or he will never be rewarded by the sight of a deer, to say nothing of his getting a shot at one. On ralny days, when the leaves are wel rainy days, when the leaves are well and packed to the earth, it is possible for wary and experienced hunters to approach within a few feet of the game without their presence being known. The hunters are often particularly expert at hunting of this kind, and it is not macommon for them to steal to within twenty feet of the largest back within twenty feet of the largest bnek on days when the uoise of their foot-steps is deadeued by the damp leaves.

Didn't Bar Her Dower. A Rhode I-land husband and wife separated twenty years ago, aml the husband applied for a divorce. The divorce was denied. Then the wife applied for a divorce. This was granted, hunters know exactly how and where and the husband was ordered to pay the they may expect to find deer, according wife alimony of \$100 a year. Several years later the Legislature changed tho law and the husband stopped paying. Meanwhile the husband sold two houses Meanwhile the hisband sold two houses in Fall River, the wife not jolaing in the deed. The parties continued to live separate, and about a moath ago the linsband died, aged seventy-six. No one followed him to the grave but the two families who had bought the roal estate from him. Now that he is dead his wife, who is seventy-two years old, becomes vested in rights of dower lu tho houses which he sold, and has ando demands upon the purchasers for her third, which they will have to pay.-Chicago Tribune.

GLORY.

Alleged Humorld.

Did you ever look forward to some great ead you hoped to accomplish and the crown of your hat in thinking ah rat master was the greatest man in Christendom, in my estimation. I can remember how, when the effastening roe was laid upon me, I wished I might one

might result and perhaps the Hard bar and send it over to the Secretary of the an adult inno cart be shed. I never was quite sure who might be the she lee, so, to avoid accidents, t ende word to inculente peace.

Later Later had held of a cover of 12 by k.

Later, I got hold of a capy of Blackstone and my mind hega (to follow the beat of the law. My giest agnialton was to stand at the bar of jistice and win the pantlif of the maltitle by my expatatants on Hule, that threenleaf. Coviey, Hilliard, and other celebrated humagit to other celebrated humagit to find elass. Three years later, I stoot with my hand on my healt and me mind what mind yon have an the particular class of information you want, then perhaps I can help you." "I was the information there is on the midget. I was thinking of going up to the liftish Maseum reading room and asking the atten hart obtaining mu alar sheet the books they have on parks."

"There's a good idea; a brill and leas when the assistants pile around you the horse while laboring made; a tir of tens."

"There's a good idea; a brill and leas when the assistants pile around you the two or three toas of books they have on that a brill and that he sold the horse while laboring made; a tird tens." then and there selling him for half his value. I maintrined that his sold the horse while laboring made, a fit of temporary insanity, and that since preovering his mental equippism hor regested the net very much, and as a proof of his good faith in that tebalf, now stool. ready to pay over all the maney be re-ceived for the animal. The just ee was was a very nareasonable and strong-minded old skindlat, however, and hound my elient over to court in the penal sum of \$1.30%. As a result, I was obliged to try my case in a higher court, and through some of my imadcolor, and through some of any many vertences he gut into the penitera-tiary for eleven years. Soon af-terwards, I received a lead-somely engrossed series of resolutions from the anti-florse Thief Association, thanking me kindly for my entinest service in behalf of the principles it advocated. As I had exerted myself considerably to get the three subdivisions, and each subdivision is in the care of a foreman, who has a gang of track bands, varying in and moved to another town, where I and moved to another lown, where I soon had a good practice and wou much fowe than I knew what to do with. Its dint of presistent effort I lied myself into a respectable income, but the honors of legal training palled opon my appetite, and my soil went out late the great pastore of leterature and browself there for a time. I found it uphill work. Publishers and eletors were not particularly complimentary to my, and my manuscripts came back to me to roast. The ignorance and want of apmy manuscripts came back to me to roost. The ignorance and want of ap-

preclation of Lterary people made me and, and I started a paper to raise the standard of literary work. The standard gross rapidly for a time, but one daylds overed that my axle-grease was corpse lay cold and still in the literary bone-yard. I then came to the conclusion that it might be a good idea to raise my own standard of abil ty a little, and went to work like a hired man at dinner. The fancy pressuotices which had been accorded time secured ironical in side my native village have heard of me, and I know I am getting there. H

stantial an article of diet to cover the numerous drains upon my system, and I am yearning for dollars. If there is any young man who thirsts for gby y-1 have reas in to believe there is one somewhere -1 shall be pleased to exchange a good sized chank of it for a sack of flour, if he will send bis name and address with the flour to my resi and address with the holf to my residence. I have a pretty well selected stock of well seasoned glory on hand, and shall be pleased to correspond with parties who would like to boy it in joh lots.—F. E. Huddle, in N. U. Mercury.

-Part of an Empire State marriage not'ce: It may be ad led that Mr. Ifan gerford married Miss Ka'e Cooper, a sister of his father's wife, and thus be-comes a brother-in-law to his mother. besides being his own wife's brother-in-law and dephaw. He is also a brother-in-law to his father and mother and an uncle to his wife and his own uncle. Mrs. Han rerford becomes the sister-inaw of her father-in-law, the daughter of her sister, and her nwn aunt. The carlons can multiply this relationship as much as tacy please, but the most concerned in the matter have had ele-gually fixed up rooms at the Woodruff thuse prepared for them, where they will enjoy I to as though there was no nore relationship existing between them than of man and wife.—Adams (N. Y.) Journal.

ORIENTAL BRASS WORK.

the New Made by Men, and the Repair ing by Damascus Women. The trays usually called Algerine are always beaten out on thin brass, are not them, but their color being peculiarly golden, as decurntions they are perfect. They are ornamented with many peinted stars or varieties of the deuble triangle. They generally present a mosque, often a ship, a crescent and star, or one of the varieties of the conventional sign known as the hand of Mahomet. They are never made now in Algiers; the only brass work known there resembles that from Tangiers—patterns cat out In low relief. Some very handsome trays of this latter sort eaa be purchased, and inscriptions of mottoes inade to order; they are more expensive than the others. Women and children in Damasous are much employed in restamping old trays from which patterns have become effaced by long use-this being probably not thought such important york as the making new ones, a task reserved for men.

Thus I have seen an old Venetian platter preserving the familiar twisted rope and embossed center, but with all the rest of the surface incised in tlat Damascus work: the conventional loz-enge could still be seen at the back. This was a most unuccessary waste of labor on the part of the Damascus workaren, as Venetian platters, though riddlod with holes like a sieve whea held up to the light, are still cherished as priceless bits of color. The inscriptions on Venetian platters are unfortunately often (like those on Eastern work) so degraded as to be incomprehensible even to the experts of the British Murcuiu .- London Queen.

A "TIP" IGNORED.

The Unfortunate Experience of a News England is often referred to by Americans us a land of tips. This is as unjust as if an Englishman were to refer to this country us the land of tho tipsy. been refused, and one of these I always have felt a little sore about, and think still my English friend teek a mean adwas laid upon me, I wished I might one day become a pedagogue, although I did not call it by that name.

A few years later I found myself occupying that enviable position in I fe. I found no pleasure in togging the litth fellows, and I was afraid of those much larger grown, togging whom would have given me more pleasure had it not heez for an undefined few. It it trouble might result and reversible parks of the metropolis and send it over to the Secretary of the vantage of the innocence of a stranger

hankment with my franta, the rangusal lang, I got hold of a capy of Blackstone and my mind fregare to follow the bear of the law. My highest application of wait to lie hout what I can about the law had I

that you f date get up a rollef party and

dig you out."
"What would you do?" "Well, I wouldn't beg'n with all the books the British Museum has. Now here are the Temple Gardons, one of the lovel'est parks In the world. I'll

introduce you to the chief man, and you can interview him."
"There's Hyd Park, for Instance; that's a sor, of typical London park. How could I find out what I wanted to know about that?"

"Write to the Ranger."
"I'll do that. Say, hada't 1 better offer him a tip of some sort? A half crown or sa? Woodhi't he answer my letter the more coolily?"

This seemed to strike my English friend as a grand scheme. He looked at me with admiration, and it was so seldom that I advanced any ideas that quite

reactibin all right."
"Yes, that wo 11 do." When I got back to the officer wides:
"Hence of Tyde Park
"Data Sin I no disspoint of obtaining what information I can also it If the Park, as west cannot be east construction, nonlier of people cands each etc. and I thought perhaps you would be good to night to mail be any paraphilists tratyon have in reference to the matter. I shall be glad to pay postage and other expenses, and If you would do not ten favor to accept half a grown for your own translated shall be obliged to you.

"I have the honor to remain, sir.
"Vour obt death sery and, the paraphilists of the appropriate of the paraphilists of the paraphilists of the paraphilists." When I got back to the office I wrote

I waited day after day but received no reply. Every time we met my Englishman expressed surprise that the glishman expressed surprise that the Ranger had not jumped at my half-erown offer. He seemed to have teld all his friends and mine about the mat-ter, and when they met me they seemed grieved that the Ranger had not written. They always Impured. I never saw people so anxious to help a persor on. At last, the man whom I consider entirely to blaom, said to me, as we met on the Strand:

on the Strand:
"Hy the way, d'd It ever occur to you
to find out who the Ranger of Hyde Park

"No," I answered. "Do you know him? "Not persucally. He is the Duke of Cambridge, head of the British army and nucle of the Duean."—Luke Sharp,

KHARTOUM.

in Detroit Free Press.

Description of the City in the Soudar Which has Fallen Into El Mahdi's Handle.

Khartonm Is a city numbering be tween lifty and slxty thoasand people Several European coasuls reside there The American consul was Azar Abd-el Melek, a Christian Copt from Esneh, and one of the principal merchants. The European colony is small and continually changing; for Khartoum Is: perfect grave-yard for Europeans, and In the rainy season for natives also, the mortality averaging then from thirty to forty per day, which huplies three thousand to four thousand for the season. Khartoum is the commercial center of the Soudan trude, amounting altogether to sixty-five million dollars a year, and earried on by one thousand European and three thousand Egyptian commer-cial hoases. Prafts and bills of exeliange upon Khartoum are as good as gold in Cairo and Alexandria, and vice cersa. From ollicial sources I learned that the city contained three thousand and sixty houses, many of them two-storied, each having from ten to oue hundred nad lifty occupants. Stone and lime are found in abandance, and the huildings are, after a fashion, substantial, the houses belonging to rich merchants being very spacious and comfortable. There are large bazars, in which is found a much greater variety of European and Asiatic goods than would be expected in such distant regions. In the spacious market-place a brisk trade is earried on in cattle, horses, camels, asses and sheep, as well as grain, fruit and other agricultural produce. Many years and an Austrian and the large of the little well with the control of the little state of versa. From official sources I learned that the city contained three thousand useful in a domestic sease, being apt to the huildings are, after a fashion, sub-woobble" when a weight is carried on stantial, the houses belonging to rich as grain, fruit and other agricultural produce. Many years agn an Austrian Roman Catholic mission was established and liberally supported by

Emperor of Austria and by contribu-tions from the entire Catholic werld. It occupies a large parallelogram sur-rounded by a solid wall. Within this inclosure, in beautiful gardens of palm, fig, pomegranate, orange and banna, stand a massivo cuthedral, a hospital and a massive enthedral, a nospital and other substantial buildings. Before the people of Egypt and the Sondan had been arritated by foreign Interference, such was their perfect toleration and good temper that the priests and mins, in their distinctive costames, were always safe from reportations, not only always after the control of ways safe from molestation, not only at Khartoun, but even at El Obeid and the neighborhood, where the majority are Mussulmans and the rest heathens. It was stated some months ago that Gordon had abandoned the Governor's palace and transformed the t'atholic mission into a fortress, its surrounding will and massive buildings rendering it capable of strong resistance.—General Colston, in Century.

Loved by Ladies.

Ladies love delicate and delicious perfumes. In Purker's Hair Balsam they not only satisfy this laste, have an article which arrests fulling hair, removes daudruff, restores the for those unable to pay, O.; for a flood, hair, removes daudruff, reslores the Ark. The State one is apt to like best original color and imparts a beauti-ful gloss, softness and life. Does not soll the linen, is not a dye, eleanly and economical.
